CCS MAILORDER INFO

All the Best Pro Skateboarding Products Since 1975

"IS IT IN STOCK?" WHEN YOU PLACE YOUR ORDER, YOUR SALESPERSON WILL LET YOU KNOW WHEN YOU CAN EXPECT DELIVERY. IF WE ARE OUT OF AN ITEM, WE WILL BACKORDER IT FOR YOU AND SHIP IT AUTOMATICALLY WHEN IT COMES IN — CHARGING YOU ONLY WHEN WE SHIP.

Not all websites are created equal.
Ours is backed by 15 years experience delivering the best skateboard and snowboard products. Our site is fully secure, and designed to make it as easy as possible for you to place an order and check what's in stock 24 hours a day. Click with confidence. **www.ccsmailorder.com**

WE do our best to try and not carry graphics and designs that may be offensive to anyone. However, skateboarding has always celebrated the individual and has supported non-mainstream ideas. Please keep this in mind when looking through the catalog. We have tried to provide many choices in each product category so you can find something appropriate for you. If you have any questions on a graphic or design, call our sales staff. We will be glad to help you.

NEW WAY TO ORDER
To serve you better, we now have a new checks-by-phone payment method. You can save the C.O.D. fee or the time it takes for us to receive a mailed-in check. Ask your salesperson about this great new service.

We try very hard to ship within 48 hours of receiving your order. So for some parts of the country, if you order on Monday, you could have your new stuff by the weekend. When you place your order ask your salesperson how long it takes to your town.

Satisfied with your purchase?
We sure hope so. If for any reason you're not, call our customer service department at
800-477-9283
. . . we'll take care of you.

WHY BUY MAILORDER?
NO SALES TAX—UNLESS YOU LIVE IN CALIFORNIA,
FREE PHONE CALL, NO PARKING HASSLES,
QUICK DELIVERY DIRECT TO YOUR DOOR.
IT COULDN'T GET ANY EASIER.

Decks are available with wood or slick bottoms and come in a variety of sizes, listed with each deck. Wood decks are constructed of 7-ply maple. Slicks have an additional thin layer of plastic on the bottom which allows them to slide easier. Personal preference and experience best determine what size deck you should ride. Background colors on decks may vary. The decks on pages 6-13 and 32-33 are good for all types of skating.

LONGBOARDS / BIG & SOFT WHEELS

Good for cruising and transportation. Big and soft wheels complement longboards by rolling smooth and fast. For best results use extra risers and wider trucks. CCS recommends Independent 156mm, 166mm, or 215mm trucks. Choose a truck with an axle width close to your deck width. To build a complete, follow the instructions on the "Custom Complete Skateboard Order" form.

BUILD A CUSTOM COMPLETE **Step 2—Trucks.**

Choose any truck from these pages (15-17). Write your choice on the "Custom Complete Skateboard Order" form. The complete price listed under each deck includes any **$16.99 EACH** truck. You can upgrade your complete with colored, Grind King G-6, or Tensor trucks, for $4/pair.
For other complete upgrades at additional cost—look for the ⓤ symbol on pages 14-18, 20, 22 and 24-25.

TRUCKS SILVER $16.99 EACH (EXCEPT GRIND KING G-6 & TENSOR), COLORED $18.99 EACH

Trucks come in various heights and widths. Truck axle width should be closely matched to your deck width—or just a little wider. Truck heights only differ by about 1/4". If you use bigger wheels then you should either use higher trucks, risers, or both to avoid wheelbite (contact of wheel with deck).

WHEELS $5.99 EACH (UNLESS OTHERWISE NOTED)

There are two things to consider when choosing a wheel: the size and the hardness. The size is the diameter (height) measured in millimeters. The hardness is measured using the "A" durometer scale. The higher the number, the harder the wheel . . . the lower, the softer. Most of our wheels are good for street, ramp, and technical skateboarding. For cruising, look for big and soft wheels on page 14.

WHEELS $5.99 EACH (UNLESS OTHERWISE NOTED)

There are two things to consider when choosing a wheel: the size and the hardness. The size is the diameter (height) measured in millimeters. The hardness is measured using the "A" durometer scale. The higher the number, the harder the wheel . . . the lower, the softer. Most of our wheels are good for street, ramp, and technical skateboarding. For cruising, look for big and soft wheels on page 14.
